Re: **Insignificant Change Request**
66 Chestnut Street, Andover
090-1319

Dear Matthew and Cristina Addesa:

Please be advised that at the regularly scheduled Conservation Commission Meeting on November 6, 2018, the Andover Conservation Commission by majority vote found the proposed plan changes described in your letter of October 17, 2018 to be insignificant to the Wetlands Protection Act.

The changes requested and approved are

- 3 NDZ markers added as discussed at the 10/2/18 Conservation Commission hearing;
- The proposed detached garage is shortened by 2 feet and remains 50 feet from the wetland boundary;
- The relocated drywell was shifted further to the west to allow for a slightly larger grassed play area behind the dwelling and minor updates to the grading to create positive drainage towards the relocated drywell; and
- Removal of 103 feet, more or less, of existing pavement and replace portions of existing pavement with paver patio as shown on revised plan provided.

For the Andover Conservation Commission,

Lynn M. Viselli,
Conservation Administrative Secretary
CC: DEP, Andover Consultants
