ANDOVER COVID-19 CASE DATA REPORT DATE: November 26, 2021

This data is being supplied to help residents and businesses make informed decisions about Covid-19 , and how they protect those around them.

As we enter the holiday season, we remind residents that Covid-19 remains a dangerous virus for many in our community, regardless of vaccination status. Unvaccinated persons continue to be at the most risk of severe complications.

The early interventions were meant to decrease spread while a vaccine was developed, and to keep the hospital systems from being overwhelmed by Covid-19 patients. We have managed to do that because our residents look out for each other, and are altruistic in wearing masks and becoming vaccinated. **HOWEVER, IT IS NOT YET TIME TO LET OUR GUARD DOWN.** We are seeing increased transmission in the community, and especially within households.

Items to Note:

- 80 of the 164 cases (49%) in this two-week period occurred in 27 households.
- 7 cases in the 2 week period are associated with a long term care facility. 3 of those 7 cases are unvaccinated.
- Persons aged 5 to 11 Years are now eligible for the Covid-19 Vaccine. We anticipate a strong response to this event, and hope to see a decrease in cases associated with this age group by the start of January.
- In looking at the raw numbers, one should not assume that this variant is disproportionately affecting vaccinated persons; it is expected that since Andover's vaccination rate is 73%, that we could see more vaccinated persons testing positive.

- Qualifications: WE KNOW THAT SOME OF THESE NUMBERS CONFLICT WITH EACH OTHER; THIS IS MEANT TO SERVE AS A LENSE TO WHAT IS OCCURRING IN THE COMMUNITY. This data is fluid and may not match numbers presented in the state's weekly community data. The state positive case data may be found here: <https://www.mass.gov/info-details/covid-19-response-reporting>.
- In the 16 to 19 year range, there are more persons vaccinated than listed in the population. Population numbers are estimates created by the Commonwealth; the number vaccinated is taken from immunization reports.
- State-wide vaccination data can be found here: <https://www.mass.gov/info-details/massachusetts-covid-19-vaccination-data-and-updates>
- The State Report on cases in vaccinated persons can be found here: <https://www.mass.gov/info-details/massachusetts-covid-19-vaccination-data-and-updates#weekly-covid-19-municipality-vaccination-data>

Precautions to Take:

- If you have not been vaccinated, or have not completed your vaccination series, **do so now**. To find a vaccination clinic, click here: <https://www.mass.gov/covid-19-vaccine>.
- If you are unvaccinated, you should wear a face covering inside public spaces and elsewhere, where crowds might be located.
- Fully vaccinated persons should consider wearing a face covering when entering crowded indoor spaces.
- Third doses of vaccine have been approved for all persons over the age of 18 years. Those third doses can be sought at pharmacies and medical practices.
- If you have been identified as a close contact of a positive person, consider being tested no sooner than 5 days after you last exposure to that person. To find a test site, visit <https://www.mass.gov/info-details/find-a-covid-19-test>.
- The Commonwealth has created an anonymous alert system to notify you if you may have been close to a positive person; you must sign up to be part of this system. Visit here for details: <https://member.everbridge.net/index/406686158291020/#/signup>.

Face Covering Guidance:

- If you are unvaccinated, you should wear a mask.
- On Public Transportation and Ride Shares, all persons **MUST** wear face coverings.
- You **MUST** wear a face covering inside a medical facility and congregate care facilities.
- You **MUST** wear a face covering inside a public school building.
- You **MUST** wear a face covering inside The Robb Center, Memorial Hall Library, and the Cormier Youth Center.
- You **MUST** wear a face covering inside any municipal building, and as all municipal board and committee meetings.
- If you are immunocompromised, even if vaccinated, you should wear a mask in crowded areas.
- If you reside with a person who is immunocompromised, you should wear a mask in crowded areas.
- If you are at increased risk for severe disease because of age or weakened immune system, you should wear a mask indoors when not at home.
- We strongly recommend the use of face coverings when indoors at public spaces.
