Re: **Insignificant Change Request**
3, 3R and 4 Executive Place, Andover
DEP File No. 090-1337

Dear Peter:

Please be advised that the Andover Conservation Commission at their June 6, 2023 meeting approved the plan revisions outlined in a letter dated May 11, 2023 and as shown on Plan "TEC Utility Plan dated 1/26/2021; TEC Utility Plan dated 8/30/2022; TEC Utility Plan dated 5/11/2023 and A&M Septic Design Plan dated 5/9/2023" as an Insignificant Change.

The Insignificant Change includes an updated septic design proposed as a 72' wide and 100' long perc-rite drip dispersal system set back 51 feet from the B series wetland.

As discussed at the Conservation Commission meeting, due to the edge of the dispersal system being 51 feet from Wetland B, a PLS stamped As-Built Plan for the dispersal system must be received by our office no later than 5 business days after installation certifying that the system is 51 feet or greater from Wetland B.

For the Andover Conservation Commission,

Lynn M. Viselli,
Conservation Administrative Secretary
CC: DEP, Ann Marton
