Re: Foster's Pond Hydro-Raking
DEP File No. 090-535

Dear Mr. Cotton:

At the May 9, 2023 meeting of the Conservation Commission the commission unanimously approved the hydro-raking and nuisance vegetation control for 2023 by making the following Motion:

“The Commission hereby approves, pursuant to Special Condition 12.28 the following 2023 treatment program for Foster's Pond:

- (1) Selective Sonar (fluridone) herbicide treatment of Dug Pond;

And “Pursuant to Special Condition 12.5(1) of the Order of Conditions for controlling aquatic nuisance vegetation in Foster's Pond, as amended on November 16, 2021, the Commission finds that the proposed changes to the list of hydro-raking sites is insignificant to the interests of the Wetlands Protection Act”.

If you have any questions, please do not hesitate to contact our office.

For the Andover Conservation Commission,

Lynn M. Viselli,
Conservation Administrative Secretary
