Re: **Insignificant Change Request**
350 Lowell Street, Andover
DEP File No. 090-1086

Dear Paul:

Please be advised that the Andover Conservation Commission at their September 19, 2017 meeting approved the plan revisions submitted by Paul Finger Associates outlined in their letter dated September 1, 2017 and plans dated August 24, 2017 "Coordination Set #3" as an Insignificant Change.

The revisions included:

The addition of trench drains located on the exterior of the structure at each loading bay. The trench drains are tied into a water quality structure to polish any discharges.

It is our understanding that the Massachusetts Board of Plumbing and Gas Fitters approved a variance allowing this drainage structure in lieu of interior floor drains.

For the Andover Conservation Commission,

Lynn M. Viselli,
Conservation Administrative Secretary
CC: DEP, Janet Bernardo
