Re: **Insignificant Change Request**
15 Trevino Circle, Andover
DEP File No. 090-1266

Dear Mr. Lees:

Please be advised that the Andover Conservation Commission at their March 20, 2018 meeting approved the plan revisions outlined in your letter dated March 5, 2018 as an Insignificant Change.

The revisions included:

The addition of a patio with the overall dimensions 40 feet by 50 feet and the walkway is 150 long. The closest point of the patio to the wetland is 65 feet and the closest point of the walkway to the wetland is 50 feet. The patio will be constructed of stone pavers with stone dust between them.

For the Andover Conservation Commission,

Lynn M. Viselli,
Conservation Administrative Secretary
CC: DEP, Scott Kelloway

Re: Request for Insignificant Change
15 Trevino Circle, Andover, MA 01810
DEP File No. 090-1266

Mr. Douglas:

Mr. and Mrs. Renfro is the new homeowner for the house recently constructed at 15 Trevino Circle. As such, he would like to be placed on the March 20th Conservation Commission agenda to request an insignificant change to the existing order of conditions for the proposed patio and walkway as shown on the attached plan.

The patio is not rectangular, but the overall dimensions are about 40 feet by 50 feet and the walkway is 150 feet long. The patio is about 65 feet from the wetland at the closest and the walkway is about 50 feet from the wetland at the closest.

The patio will be constructed of stone pavers with stone dust between them allowing some infiltration.

It is my opinion that the proposed changes will have no adverse impact on the resource areas.

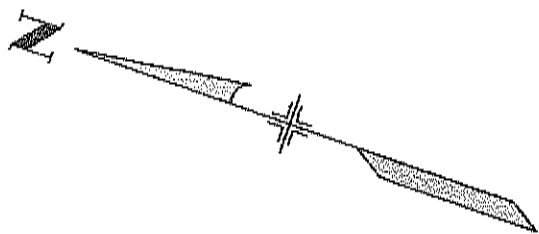

If you have any questions or comments regarding the above, please do not hesitate to call.

Thank you
