Re: Response to Traffic Peer Review Follow-Up  
3000 Minuteman Road – Initial Campus Redevelopment  
Andover, Massachusetts

Dear Ms. Byerly:

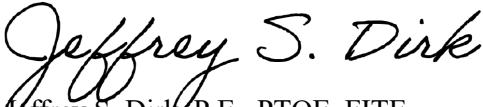

By way of follow-up to our July 15, 2022 *Response to Traffic Peer Review* letter concerning Environmental Partners (EP) review of the June 10, 2022 *Transportation Impact Assessment* (the “June 2022 TIA”) prepared by Vanasse & Associates, Inc. (VAI) in support of the initial phase of the redevelopment of the Philips Healthcare campus located at 3000 Minuteman Road in Andover, Massachusetts (hereafter referred to as the “Project”), VAI is supplementing our response to Comment 9 pertaining to obtaining crash reports from the Andover Police Department.

VAI contacted the Andover Police Department Records Division to obtain the crash reports for the River Road/Minuteman Road/Shattuck Road and River Road/1776 Drive intersections, and was informed that the Police Department provides crash reports to the Registry of Motor Vehicles and that we should use the crash data as queried through MassDOT. A review of the MassDOT crash data was included as a part of the June 2022 TIA, with the back-up data provided as a part of the July 15, 2022 *Response to Traffic Peer Review* letter. Follow-up with the Andover Police Department indicates that the analysis using the MassDOT crash data is acceptable and no further review is required as a part of the Project.

If you should have any questions, please feel free to contact me.

Sincerely,

VANASSE & ASSOCIATES, INC.
