**Subject:** REQUEST FOR SECTION 106 CONSULTATION COMMENTS-31927

Good morning,

Ramaker & Associates, Inc. (RAMAKER) was retained by inMOTION Wireless Inc. (inMOTION) to complete a NEPA and Section 106 review of an antenna and equipment installation to a proposed 70-foot steel inMOTION monopole tower (overall height with appurtenances of 74 feet). The activities will occur within the Massachusetts Bay Transportation Authority (MBTA) existing and active railroad right-of-way (ROW). A more complete description of the proposed undertaking is included, as well as maps, site photos and site plans.

Following the FCC protocols and procedures, should you wish to provide additional comments with respect to the potential to effect cultural and/or historic properties, please contact RAMAKER. Additionally, if you have any information regarding other potentially interested consulting parties that should be contacted, your input on this matter would also be greatly appreciated. As the project is proposed for development in the very near future, we would appreciate receiving your comments in the next 30 days.

Thank you kindly,

Thanks,  
Rose
