Introduction to CW Index

Summary of Andover Soldiers and Sailors in the Civil War

The Andover Company, consisting of hometown men, was formed within hours of receiving the news of war. This group was chartered by the governor as the Andover Light Infantry. In July of 1861 the unit was mustered into the 14th Massachusetts Infantry as Company H. This regiment was later designated as the 1st Massachusetts Heavy Artillery.

Many Andover boys enlisted with other regiments; sometimes enlisting to the credit of other towns or states.

Unofficially, 716 men represented the town of Andover throughout the war although not all of them were residents. Quotas were often filled by volunteers from other cities or states. Andover, for example, received credit for 46 naval recruits, 15 hospital stewards and 12 Southern representative recruits assigned to the U.S. Colored Troops.

Spotsylvania took the deadliest toll on Andover volunteers, claiming 13 men from Company H. Many other fields claimed the lives of residents serving in other companies or regiments.

Statistics show 92 men gave their lives to the cause. Twenty (20) were killed in combat. Fifty-three (53) men died of disease, including sixteen (16) who were detained in prison camps.

Civil War Index

The Civil War Index provides an alphabetical listing of the 716 men who represented Andover in the war. The Index lists the name, regiment, date of death (DOD) and the cemetery (when known) where each man is laid to rest. In some cases when the cemetery is unknown, the town or city where he died is listed.

Key to Symbols

The following symbols are found in the Date of Death (DOD) column. The code is located at the bottom of each page.

^ indicates Disease + indicates POW (Prisoner of War) # indicates Killed in Action * indicates Accident
