

A Quick Guide for Businesses Implementing Andover's Polystyrene Bylaw

To determine if your business must comply...

If you answered **YES** to any of the above questions...Your business must find an alternative to all foam or rigid Polystyrene products. Please take the following steps:

1. Polystyrene single-use, disposable products must be phased out. Be sure to check plates, cups, cup lids, straws, utensils, and other products to make sure they are not made of Polystyrene... #6 plastic.

2. Aluminum and Paper products are ok.
3. Consider switching to Reusable Tableware, Straws, and Cutlery.

4. Disposable utensils must be compostable or biodegradable.
5. Check with your existing vendors to see what products they offer to help you meet the bylaw.
