

WHAT NOT TO FLUSH

Sewers are only designed to handle very specific items. Attempting to flush anything else can lead to expensive and wasteful blockages. **Even products marketed as “flushable” can wind up clogging pipes**– when in doubt, throw it out.

What to flush:

- Toilet paper
- Human waste
- Water

What NOT to flush:

- Flushable wipes
- Feminine hygiene products
- Diapers
- Tissues
- Paper towels
- Food items
- Any cloth item
- Medicines, vitamins, any pills
- Plastic of any kind
- Dental floss
- Cotton swabs
- Cat litter
- Cigarettes
- Q-tips
