The existing steps turn 90° and go down to the driveway (see photo). The new steps will come straight out down to a brick walkway leading to the sidewalk. 8" sonotubes will be placed and filled per Shea's specification (attached) to a depth of 48". Specifications for the steps are attached, the steps will be 5' wide and 22.5" high (3 risers). All utility lines in the area will be marked by DigSafe prior to any excavation.</p> <p>The existing wooden columns supporting the portico are rotting and will also be replaced. The portico will be temporarily braced, and new fiberglass columns will be installed to support the portico. The existing wooden railing is also rotting, and will be removed.</p> <p>Approximate material cost, including delivery from Shea, is \$3000. We doubled that number to come up with our est. project cost.</p>		\$6,000.00	\$103.00
